# QHSE Policy

## Quality, Health & Safety, and Environment

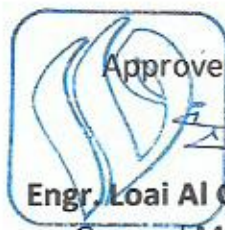

Al Wataniya Concrete (AWC) is dedicated to provide quality ready-mixed concrete products and services to our valuable customers at the most economical and timely delivery, at the best possible engineering solution, and in a sustainable manner.

To achieve this, we are committed:

1. To fulfill customer requirements by consistently delivering our promises through efficient and prudent management of resources and by practicing the highest standard of integrity and professionalism.
2. To continually improve our capabilities by adapting to market changes, enhancing the competency of our employees, and acquiring the right manufacturing processes and technologies.
3. To provide a safe working condition to prevent injuries and ill health to our employees and interested parties.
4. To protect the environment by preventing pollution, reducing waste and optimizing the consumption of resources.
5. To comply with international standards and applicable legal and other requirements.
6. To determine and manage the risks and opportunities related to internal and external issues, environmental aspects and compliance obligations, which need to be addressed to ensure achievement of intended results, to prevent or reduce undesired effects, and to promote sustainability and continual improvement.
7. To periodically review the QHSE objectives to ensure alignment with this policy, enhancement of customer satisfaction and applicability to existing business processes.
8. To ensure this is communicated to and understood by all employees, and shall be available to interested parties.

**VISION:** *To become the Market Leader and First Choice in Ready-Mixed Concrete industry in the State of Qatar*

**MISSION:** *Strengthen partnership with our customers and external providers  
Provide cost-effective custom solutions to construction and relevant industries  
Deliver best quality products and valued services  
Protect the environment and the people  
Sustain long-term profitability and growth*
